Hi Merlyn,

How you are doing. Looks like Caritas is doing so good and I am very proud of how you have grown this charity. I know you would never pat yourself on the back but I would. You are a remarkable woman and I am so proud to have been part of this charity, especially in the early years. I hope some day to come back and help more than I have been. On another note, my Kidney is doing well and I am so grateful and thank full for you helping me get to know **Andy** and how much his gift did for me and how it has saved my life. I am forever grateful.

I am having another issue that I may need a prayer or two. I believe that is what has helped me in the past. I had surgery for skin cancer early in the year and as much as I thought it was over, it has metastasized or spread. The problem I am having is the immune suppressant drugs are causing my skin cancer to get more aggressive because of my low immune system, I can't fight it. If I cut out these drugs I lose my cancer but I also lose the kidney. I am stuck. I am now on 8 weeks of Radiation on my head to see if it can rid my body of this awful retched disease. I am praying and hoping that it will go into remission. I have attached a couple of picks to show you the the radiation process. Thank for always being there for me

God Bless You

Paul
